

# 8604 Staticide® Electronics Rinse VT

## *Economical universal electronics contact and assemblies cleaner*

Electronics Rinse VT is a cost-effective, non-flammable, general purpose electronic component rinse. This high-pressure cleaning agent is excellent for removing grease, oil, and flux residues. Specially formulated for low environmental impact, this low-odor aerosol instantly evaporates without leaving a residue.

Cleaning action removes contaminants while restoring efficiency and maintaining instrument precision. This essential electronics cleaner for semi-conductor and PCB applications is also an aggressive cleaner for heat sink greases. Electronics Rinse VT is safe on plastics and ideal for removing oxidized soils from printed circuit boards, switches, circuit breakers, motors, and armatures.

### Directions:

To rinse, spray at a distance of 4-6 inches from surface. Apply from top to bottom, allowing liquid to flush away grease, oil, and flux residues. Use extension tube for precise application. Special valve allows for 360° spraying.

Do not use on energized equipment.

For industrial use only. Read SDS carefully prior to use.

### Material Compatibility:

ABS	Good
Buna-N	Good
EPDM	Poor
Graphite	Good
HDPE	Good
Kynar™	Poor
LDPE	Fair
Lexan™	Poor
Neoprene	Poor
Noryl	Good
Nylon™ 66	Good
Cross-linked PE	Good
Polypropylene	Good
Polystyrene	Poor
PVC	Good
Silicone Rubber	Poor
Teflon™	Good
Viton™	Good

### Ideal for the following applications:

- General industrial
- Electronics manufacturing and assembly
- Military defense

### FEATURES:

- ❖ Best HCFC-141b replacement
- ❖ Evaporates super quickly; non-residual
- ❖ Dissolves encrusted dirt, grease, and oxidized soils
- ❖ Non-corrosive; non-flammable
- ❖ Safe on metals and plastics
- ❖ Mild odor
- ❖ No CFCs, HCFCs, or 1,1,1 trichloroethane
- ❖ RoHS compliant
- ❖ Made in USA

### Product# 8604

11 oz (312g) aerosol / 12 per case
